MARKET VALUE

The market value of the land under acquisition is to be determined with reference to the price prevailing on the date of notification u/s 4 of the L. A. Provisions of section 22 & 23 of Delhi Land Reforms Act are applicable to the land under acquisition and thus the land can only be used for the purpose of agriculture, horticulture or animal husbandry etc. To have an idea of the prevailing rates on the date of notification, the sale deeds executed on or around the date of notification and the rates of compensation allowed in the awards announced in respect of the ~~same~~ land in the same village could be the best guide. The details of the mutations, available on record in respect of the sales transactions conducted during the past five years are as follows :-
